

MULTIMISTER

MOBILE TROLLEY

The dust-suppressing MULTIMISTER will suppress airborne dust particles with high-pressure water mist creating fine water droplets by special misting nozzles.

Only using 1/2 - 1 gallon per minute saves water and reduces flooding the site. The easy maneuverable unit has a 26-gallon water tank, misting mast and 32-ft hose loom with 4 nozzles for targeting dust source. Available in 110v or 230v power options.

Water Reservoir

A 26-gallon tank will supply you 50-60 minutes remotely or continuously when fitted to float valve from mains.

Maneuverability

Puncture-proof wheels and heavy-duty braked castor can be positioned easily.

Water Pump & Controls

Quality high-pressure water pump and motor. Pump switch with emergency stop 20-ft lead and socket.

Misting Mast

Adjustable height mast from 5 - 6.5 FT and easy clean mast with removable nozzles.

Just Add Water!

Connect mains water supply for continuous running!

Hose Line

Also fitted with 32-ft lead hose with x 4 fogging nozzles at 3-ft spacings. Optional configurations on request.

Simple About Dust Suppression.

The MULTIMISTER can be used with its own water (50-60 mins) or mains supply. It is very versatile and can be positioned in most difficult locations. Ideal for small demolition operations, recycling sites and plants, environmental remediation, steel/slag handling, wood processing, firefighting, bulk material, and event cooling.

Standard Specification

26-gallon tank on heavy duty tubular wheelable frame with float and drain valve, 6.5-ft height Mast, 110v electric pump with 13-ft lead and plug, 42-ft misting hose line with 4 fogging nozzles and switch valve.

Fogging Hose

32 feet of lead hose and 10 feet with 4 fogging nozzles for placing round areas where dust is produced. The hose line will suppress the dust when positioned near to the source as much as possible.

Suppress the Dust.

Our proven system consists of binding the airborne dust particles with fine water droplets which helps them fall to the ground by gravity.

InterQuip offers many different misting machines that suit most customer demand for suppressing those dusty operations.

SPECIFICATIONS	MMT
Power Options	110V, 230V
Dimensions (in)	36" L x 28" W x 61" H (92 L x 70 W x 155 H (cm))
Weight (empty)	100 lbs (45 Kg)
Pump Motor Kw	0.75
Mast Mist Distance (No Wind)	13 - 20 FT (4-6 M)
Hose Mist Distance (No Wind)	20 FT long x 14 FT deep (6M long x 4M deep)
Water Consumption	0.5 GPM (2 LPM)
